
160w solar container outdoor power

What are the best portable solar panels?

Power the great outdoors. Lightweight and travel-friendly, EcoFlow's 60W, 110W, 160W, and 400W portable solar panels are ideal for camping and outdoor activities. Charge your portable power station in just a few hours to power up essentials like a coffee maker and laptop. Our foldable 400W portable solar panel is one of the first of its kind.

Are ecoflow solar panels good for camping?

The handy case doubles as a self-supporting stand and adjusts 180 degrees for max sunlight absorption. Panels conveniently fold away inside the protective sleeve to carry or store when not in use. So lightweight and easy to transport, EcoFlow's portable solar panels are a camping-trip must-have, keeping you powered up for longer.

Do ecoflow solar panels work with third-party power stations?

The perfect power couple. All EcoFlow portable solar panels use a universal solar connector, so they work with almost all third-party portable power stations as well as EcoFlow's. Designed for portability. The handy case doubles as a self-supporting stand and adjusts 180 degrees for max sunlight absorption.

Are solar panels waterproof?

An IP67 waterproof membrane protects solar cells from dust, debris, and rain. On the ground while you camp. On the roof of your home. And even on top of your RV for solar charging on the move. What's more, our 400W portable solar panels have an additional layer of fiberglass, protecting the cells from bending and damage.
