
295w high efficiency perc bifacial module

What is PERC bifacial technology?

PERC bifacial technology is a new way to achieve high-power and low- cost module. NSP BiFi double-glass module has high power output and better reliability. Champion module power 298W with 60 cells and equivalent power 337W. NSP BiFi module enables higher system IRR than conventional mono-facial multi c-Si,mono c-Si,and PERC modules.

What is bifacial PV & PERC?

BiFi module has various applications in solar farm, agriculture, flat rooftop, BIPV, carport, landmark, snow region, and desert region. Cost reduction is the key to expand bifacial PV market. PERC bifacial technology is a new way to achieve high-power and low-

What is NSP BiFi 295W module?

NSP BiFi 295W module enables higher system IRR than conventional mono-facial 265W multi c-Si,280W mono c-Si,and 295W PERC modules. Higher albedo enables higher IRR in BiFi system. BiFi module has various applications in solar farm,agriculture,flat rooftop,BIPV,carport,landmark,snow region,and desert region.

What is a bifacial solar module?

LONGi launched its mono-PERC modules in 2016,featuring integrated PERC technology on monocrystalline silicon and low light degradation,and its cell efficiency has increased from 21% to 24.06%. Bifacial modules collect solar energy from both the front and back side of the module,increasing the total power output per module.

High quality PERC Double Glass PV Modules 295W Fire Safety Class A 30 Year Lifespan from China, China's leading double glass solar modules product, with strict quality control dual ...

Summary Cost reduction is the key to expand bifacial PV market. PERC bifacial technology is a new way to achieve high-power and low- cost module. NSP BiFi double-glass ...

295W 60cell Single Glass Bifacial Solar Energy System Large Panel Mono Crystalline Module Perc, Find Details and Price about Mono Solar Panel Large Mono from ...

LONGi High-efficiency solar Module, widely adopting PERC solar cells technology, Half-cut Module Technology and Bifacial PV technology,Mono Silicon Crystalline Technology ...

Go for efficient and robust 295w jinko solar panel module at Alibaba for both residential and commercial uses. Buy amazing 295w jinko solar panel module having mono, poly and ...

The product adopts high-efficiency PERC cell technology, which effectively reduces system cost; while the photovoltaic cell PERC technology effectively reduces the hot spot risk ...

Specifications Gallery Product Description Perc monocrystalline bifacial dual glass solar panel / 295W / 60cells / 20V monocrystalline solar panel : High conversion efficiency Low power ...

Moregosolar Bifacial PERC 295W mono Solar Panel, Nanjing Moge New Energy Co., Ltd. is a professional solar panel manufacturer, supply mono crystalline and poly crystalline solar panel ...

PERC bifacial technology is a new way to achieve high-power and low- cost module. NSP BiFi double-

glass module has high power output and better reliability. Champion module power ...

As solar technology continues to evolve, new panel types offer better efficiency and performance. Two popular options in today's market are mono PERC and bifacial solar ...

Front Power 295W Dimension 1658*992*6mm Front Efficiency 17.9% Life span 30 years Brand Name Rixin Model Number DDM (P)295 Certification TUV, CE, ISO9001, ISO14001, ...

The Jinko JKM295M-60B-U 295W Mono PERC Solar Panel is an excellent choice for homeowners and businesses looking to maximize their solar energy generation and reduce ...
