## 30kva-solar container system in Penang Malaysia

Why should you choose a solar power provider in Malaysia?

As a leading solar power provider, we make it easy for you to save up to 90% on electricity bills with the fastest installation in the solar system Malaysia market! Our solutions are engineered for durability, efficiency, and maximum energy output, enhancing your property's value while reducing carbon footprints.

What is Malaysia's number 1 home solar - 3 years in a row?

Malaysia's No.1 Home Solar - 3 Years in a Row! Malaysia's trusted leader in residential solar energy, with the MBOR title for "Most PV Homes Installed" three years in a row--over 3,000 homes powered and counting. Ensuring your installation is done right, with full transparency and complete peace of mind.

Could a solar farm float on Penang's Harbour?

The Star has learnt that this entails creating a solar farm that floats on a sheltered quarter of Penang's harbour stretching over 4ha, the size of three World Cup football fields. On a sunny day, it is expected to churn out 30 megawatts of electricity, which theoretically will be enough for 6,000 homes.

Why do you need a solar container unit?

Our solar containers ensure fast deployment, scalability, customization, cost savings, reliability, and sustainability for efficient energy anywhere. With our pre-configured solar container unit, you can get going quickly, and the folding solar panels for containers can be deployed in less than three hours.
