
500W solar light with several LEDs

How does the 500W led solar flood light work?

The 500W LED Solar Flood Light is designed with user convenience in mind. It features a built-in LED indicator on the floodlight that diligently monitors the battery's status. This intuitive feature not only keeps you updated on the battery's health but also provides a clear indication of the remaining illumination time and charging process.

How many lumens does a 500W solar floodlight have?

Illuminate your outdoor spaces with this powerful 500W solar floodlight, boasting 30 000 Lumens and a color temperature of 6500K. Its IP67 waterproof grade ensures it shines bright, rain or shine. Comes with a remote control for customizable lighting modes and an 8-12-hour battery life.

Is a 500W solar panel a large size?

No, a 500W solar panel is not a large size for residential installations. Sunpower and other companies focusing on residential installations prioritize efficiency over size, so their solar panels are easily installed in residential areas. TrinaSolar and JinkoSolar both have 500w panels, and given the emerging technology, it's still not very common.
