
ASEAN local solar module prices

Is PV module manufacturing in Southeast Asia under pressure?

Thanks to new data, this edition includes entries such as ICA Solar and United Renewable Energy (URE), reflecting the evolving landscape of PV manufacturing in the region. Despite strong ambitions, PV module manufacturing in Southeast Asian is currently under pressure.

How much solar power does the ASEAN region have in 2022?

The ASEAN region has 27 GW of solar and 6.8 GW of wind installed capacity in 2022, representing less than 1% of the approximately 30,523 GW of solar and 1,383 GW of wind theoretical potential estimated by the National Renewable Energy Laboratory (NREL).

Why is Southeast Asia accelerating solar energy plans?

SINGAPORE (Reuters) - Southeast Asia is accelerating plans to harness energy from the sun in coming years as the cost of generating electricity from some solar power projects has become more affordable than gas-fired plants, officials and analysts said.

What's new in the 2025 Southeast Asia Solar supply chain map?

The first 2025 edition of the Southeast Asia Solar Supply Chain Map includes significant revisions and additions, driven by valuable market feedback and the region's evolving geopolitical and industrial dynamics.

The institute has estimated that robust US demand for solar products could support some increased import costs, but any price increase beyond 250 percent would make ...

In recent years, Asia has emerged as a new hub for the photovoltaic (PV) industry. Southeast Asian countries, with their abundant solar resources, well-established policy ...

Southeast Asia Solar Energy Market Size & Share Analysis - Growth Trends And Forecast (2025 - 2030)

The Southeast Asia Solar Energy Market Report is Segmented by ...

After a brief pause during the SNEC 2025 week, TaiyangNews returns with the latest PV Price Index, highlighting a largely positive week for upstream players in Calendar ...

Explore 2025 solar module price dynamics: Why tariffs caused 7.7% price hikes in Southeast Asian imports vs. cheaper alternatives. Discover peak demand periods and ...

Malaysia Photovoltaic Industry Association president Davis Chong foresees solar PV price to "continue to be low at below US\$0.10" per watt as global oversupply persists, ...

Establishing a solar module manufacturing plant in Indonesia that produces high-quality, certified modules offers a powerful value proposition. It allows a business to target the ...

SINGAPORE (Reuters) - Southeast Asia is accelerating plans to harness energy from the sun in coming years as the cost of generating electricity from some solar power ...

June 2025 The first 2025 edition of the Southeast Asia Solar Supply Chain Map includes significant revisions and additions, driven by valuable market feedback and the region's ...

In June 2025, Trina Solar Indonesia, a joint venture between China's Trina Solar and state-owned utilities

in Indonesia, commissioned an integrated manufacturing plant with ...

What are the latest trends in the ASEAN solar energy scene? The Association of Southeast Asian Nations (ASEAN) is a dynamic market for solar power as well as for ...

For comparison, solar module prices imported from China cost 0.17 cents USD/MWh on 1 August 2023, while domestic products cost around 1 USD/MWh. For wind ...

Read more Global average price for solar PV modules 2016-2024 Published by Lucía Fernáandez, Nov 28, 2025 The global price of solar photovoltaic modules averaged ****
