How do enstation5-ac antennas work in a point-to-point deployment?

Longer ranges can be achieved when paired with another EnStation5-AC in a Point-to-Point deployment by aligning their dish-shaped antennas to face each other ensuring each gets the full impact of the narrow-focused, wireless beam, helping to reduce frequency interference over long distances -- up to 5 miles away.

Is enstation5-ac waterproof?

EnStation5-AC is designed to perform, even in harsh environments. Its IP55-rated waterproof and dustproof casing ensures it can withstand harsh outdoor climates and indoor industrial environments.

Where can enstation5-ac be used?

EnStation5-AC extends the wireless network across large campuses, over vast acreage in parks and recreational facilities, parking lots, city blocks, and industrial, farming and ranching properties; in sizeable indoor structures like arenas, shopping malls, warehouses and convention centers and in other challenging settings.
