
British glass solar power generation manufacturer

Who is GB-Sol?

Established in 1994, GB-Sol is an independent UK company, manufacturing solar PV panels and mounting systems at our spacious factory on the Treforest Industrial Estate, just north of Cardiff. A spin-out from the Cardiff University solar test centre, GB-Sol has been at the forefront of solar power generation for several decades.

What is AGC solar glass?

The AGC solar glass range covers two main applications: Building Integrated Photovoltaics (BIPV) (electricity generation) and Concentrating Solar Power (industrial electricity generation). BIPV glazing has a dual role: it is part of the outer structure of the building, while at the same time generating electricity using photovoltaic energy.

Why should you choose GB-Sol solar panels?

When you choose GB-Sol, you are choosing safety, reliability, durability and sustainability. GB-Sol awarded 'Best Buy' for manufacture of solar panels with a score of 80 where most solar panel manufacturers scored less than 40. Take a look at our new guide for PV Slate on Heritage Buildings.

Is GB-Sol a good solar supplier?

GB-Sol has been top-rated solar supplier in the Ethical Consumer magazine for many years. At GB-Sol we try to ensure that our supply partners have high standards and play no part in slavery, exploitation of children, conflict minerals or other forms of corruption. You can download our Supplier Code of Conduct here.

GB-Sol - robust solar PV made in Great Britain Established in 1994, GB-Sol is a UK company manufacturing solar PV panels and mounting systems at our spacious factory just north of ...

Advanced Solar Engineering and Manufacturing At Glass Light Power, we offer full-scale solar product development, from design and prototyping to manufacturing and certification. Our ...

Commercial and industrial rooftops are the ideal place for solar panels. See how glass making factories and warehouses across Europe can benefit from solar energy.

AGC offers extra clear float glass products for a broad range of solar applications. Your single source: High-efficient float glass production, glass coating, glass processing as well as high ...

PV Slate, Infinity solar roofs & Integrated solar roofs Established in 1994, GB-Sol is an independent UK company, manufacturing solar PV panels and mounting systems at our ...

European High Power Yield Solar Panels Our slimline design "EcoGlass" High Power Yield Photovoltaic Glass/Glass Solar Panels are suitable for both Rooftop and Building ...

As this energy-generating glass is an integrated part of the facade, it is not necessary to install separate traditional photovoltaic units on the rooftop. SunEwat is AGC's ...

Solar power is a leading force in renewable energy, following hydropower and wind in global electricity generation. The companies driving this sector are pushing the boundaries ...
