
Bulk purchase of solar components

Should you buy wholesale solar equipment?

There are many benefits to buying wholesale solar equipment and streamlining your supply chain processes. Lower priced arrays help more people go solar. You probably got into this business because you believe in solar as an affordable renewable energy source and want to do your part to make it accessible to all.

Who is solar electric supply?

Whether you're looking to power a home, a business, or a large-scale industrial project, Solar Electric Supply is your go-to partner for all your solar energy needs. SES provides a broad selection of solar panels, inverters, mounting systems, and energy storage solutions from industry-leading manufacturers.

How do Solar Contractors buy & sell solar equipment?

Rather, they tend to acquire goods from a variety of supplier relationships like manufacturers, other wholesalers, liquidators, auction houses, and even developers, EPCs, and contractors with excess and second-hand material. They may work with solar equipment brokers to buy and sell goods as well.

How do I get a wholesale solar quote?

Installers, EPCs and solar brokers looking for wholesale deals can request quotes from multiple sellers by joining online exchanges or partnering with a solar equipment broker. For example, EnergyBin members who send out RFQs for their material lists receive an average of 5-10 quotes within one business day.
