
Coal-to-electricity energy storage device in Almaty Kazakhstan

Could coal-fired power plants be used in Kazakhstan?

As already mentioned in the previous chapter, some existing coal-fired power plants could be used in Kazakhstan to increase flexibility so as to integrate more variable renewable power in the medium term.

Who owns Almaty Power Station?

The Almaty-2 power station is owned and operated by Almaty Power Plants JSC, which is fully owned by Samruk-Energo, which in turn is owned by the National Welfare Fund of Kazakhstan Samruk-Kazyna. Almaty Power Plants also includes Almaty-1 power station and the Almaty-3 power station.

Will Kazakhstan throw coal out of the energy sector?

"The energy sector of Kazakhstan traditionally operates mainly on coal, and the share of coal consumption is quite large. We will not throw coal out of the equation. Moreover, we want to build new coal power blocks and modernise those coal power plants that we already have".⁸

Where is Almaty 2 power station?

Almaty-2 power station (Алматы-2 электростанция, Алма-2) is an operating power station of at least 510-megawatts (MW) in Almaty, Alatau, Kazakhstan with multiple units, some of which are not currently operating. The map below shows the exact location of the power station. Loading map... Unit-level coordinates (WGS 84):

Kazakhstan is a net importer of electricity, with electricity consumption exceeding production by 4%.²¹ The electricity shortfall is covered by purchases from Russia, which ...

The proceeds will finance the reconstruction of Samruk Energy, the parent company of Almaty Electric Power Plants (AIES). A key component is the installation of an over 500 ...

The proposed Project will gradually decommission and replace inefficient coal-based power generating units with combined cycle gas turbine (CCGT) units with an installed ...

Since 2008, POWERCHINA has signed 26 projects in Kazakhstan with a volume of over US\$ 5 billion, including the upgrade of the Almaty Coal-fired Combined Heat and ...

The project will completely convert CHPP-3 from coal to gas. To make sure that the project receives necessary gas supplies, on 2 July 2021, Askar Mamin, Prime Minister of Kazakhstan, ...

Construction officially commenced on the largest clean energy power station in Kazakhstan - project to modernize (coal to gas conversion) the Almaty CHP-2 - on July 1. The project is led ...

Almaty-2 power station (Алматы-2 электростанция, Алма-2) is an operating power station of at least 510-megawatts (MW) in Almaty, Alatau, ...

What does reconstruction include? Reconstruction of Almaty CHPP-3 provides for the construction of a completely new power plant with significantly greater power and ...
