# Collaboration on Ultra-Large Capacity Mobile Energy Storage Containers

Is CATL launching a new energy storage system?

CATL (SHE: 300750) has rolled out a new energy storage system called TENER Stack in a bid to consolidate its position in the sector. The Chinese battery giant launched the TENER Stack at the battery storage show in Munich, Germany, on May 7, calling it the world's first production-ready 9 MWh ultra-high-capacity energy storage system solution.

What is CATL TENER energy storage?

To meet the expectation of a BESS system that has high energy density, small footprint, simpler AC-side configuration, and flexible deployment, we bring the latest CATL TENER energy storage solution. It breaks the limitations of power capacity and product transportation, and makes breakthroughs in space utilization, energy efficiency, and cost.

Is CATL TENER energy storage a BESS system?

"CATL has always been at the forefront of the energy transition," said Amanda Xu, CTO ESS & President of ESS Europe CATL. "To meet the expectation of a BESS system that has high energy density, small footprint, simpler AC-side configuration, and flexible deployment, we bring the latest CATL TENER energy storage solution."

Will AI reshape energy storage?

Unveiled ahead of EES Europe 2025, this cutting-edge technology promises to reshape how industries and utilities manage energy storage amid surging global demand driven by AI, data centers, and industrial electrification.

Landmark innovation pairs high capacity with flexible transport, redefining large-scale energy storage  
CATL today unveiled the TENER Stack, the world's first 9MWh ultra-large ...

Mobile solar power containers have become a transformative solution for delivering portable, reliable, and sustainable energy to remote sites, construction areas, disaster zones, ...

CATL's TENER Stack: A Game-Changer in Energy Storage Innovation  
Global battery giant CATL has raised the bar for large-scale energy storage solutions with the debut ...

At EES Europe 2025, Chinese battery giant CATL made headlines by unveiling the world's first 9MWh ultra-large capacity energy storage system solution, the TENER Stack. ...

Landmark innovation pairs high capacity with flexible transport, redefining large-scale energy storage  
MUNICH, May 7, 2025 /PRNewswire/ -- CATL today unveiled the ...

On May 7, 2025, CATL unveiled the TENER Stack at the EES Europe trade fair in Munich, Germany, introducing the world's first mass-producible 9MWh ultra-large-capacity ...

On the first day of the Smarter E show in Munich, CATL, the world's largest battery manufacturer, unveiled the TENER Stack, which it describes as the world's first 9 MWh ultra ...

Large-scale mobile energy storage technology is considered as a potential option to solve the above problems due to the advantages of high energy density, fast response, ...

---

Contemporary Amperex Technology Co. Limited (CATL) has launched the world's first 9MWh ultra-large capacity energy storage system, the TENER Stack, at the EES Europe ...

On May 7th, 2025, CATL has unveiled the world's first mass-producible 9MWh ultra-large-capacity energy storage system solution, TENER Stack, setting a new industry ...

Envision unveiled the world's largest energy storage system at the 3rd EESA Energy Storage Exhibition on September 2nd ---- a standard 20-foot single energy storage ...

CATL (SHE: 300750) has rolled out a new energy storage system called TENER Stack in a bid to consolidate its position in the sector. The Chinese battery giant launched the ...

In April 2024, CATL unveiled a 6.25 MWh capacity energy storage system called TENER, promising zero degradation in the first five years of use--the first of its kind.
