
Croatia 2025 solar Panel Project

Will Croatia get 1 GW of solar power by 2025?

Croatia is on pace to surpass 1 GW of solar power by 2025, thanks to a surge in installations and supportive government policies. This growth is part of the country's broader commitment to renewable energy and aligns with EU targets to boost the share of renewables in electricity generation.

Will Croatia launch two solar tenders in 2025?

Croatia plans to launch two solar tenders in 2025, according to the country's indicative annual publication plan for the year, which is now available on the Ministry of Environmental Protection and Green Transition's (MZOZT) website.

How much will Croatia spend on renewables in 2024?

Together, the two bodies will allocate a total EUR652 million in subsidies across the year, the plan says. Croatian energy market operator HROTE hosted a renewables tender in June 2024 to secure market premium support for 607 MW of renewables, including 450 MW of solar. It ended up allocating 413.5 MW of solar with an average price of \$0.065/kWh.

Why are solar projects growing in Croatia?

The government's commitment to a favorable investment climate has been a critical driver of this growth. Incentives such as feed-in tariffs, tax breaks, and subsidies for solar projects are designed to attract more investors and developers to the Croatian solar market.

Croatia plans to launch two solar tenders in 2025, according to the country's indicative annual publication plan for the year, which is now available on the Ministry of ...

Croatia's renewable energy sector is booming. Discover how new policies and investments are helping its solar capacity surpass 1 GW by 2025, with a target of 2.5 GW by ...

The Korlat solar project is Croatia's largest photovoltaic power project, with an installed capacity of 99 megawatts. Upon completion, it is expected to generate 165 million ...

The project is backed by a EUR31.6 million loan from the European Bank for Reconstruction and Development (EBRD), highlighting the region's commitment to sustainable ...

Croatia's Solar Energy Funding Initiatives The Croatian government is harnessing the power of solar energy, planning to allocate a noteworthy EUR25 million specifically for the ...

Croatian Prime Minister Andrej Plenkovic (2nd R, Front) and Chinese Ambassador to Croatia Qi Qianjin (2nd L, Front) visit the construction site of the Korlat solar project in ...

As Croatia's largest photovoltaic project to date, the Korlat 75MW PV project is expected to generate 165 million kilowatt-hours of green electricity annually upon completion, ...

Croatian Prime Minister Andrej Plenkovic addresses a groundbreaking ceremony of the Korlat solar project in Korlat, Croatia, on May 15, 2025. The groundbreaking ceremony ...

News JA Solar to Supply Modules to Croatia's Largest Solar Project Time2025-07-11 JA Solar, a trusted partner in global green energy, will supply its high-performance DeepBlue 4.0 Pro ...
