
Dili solar container lithium battery pack export

How to export lithium batteries in China?

Exporting lithium batteries requires strict compliance, smooth logistics, and reliable port selection. Choosing the wrong port can lead to delays or rejected shipments. The best ports in China for exporting lithium batteries are Shenzhen, Shanghai, and Ningbo.

Are lithium batteries shipped in a container?

There are three packaging categories for lithium batteries if they are being shipped in a container. When shipping lithium batteries, it is crucial to check the rules and regulations ahead of transportation, or work with an experienced shipping partner to ensure that your cargo is shipped following best practices.

How many lithium batteries can be shipped?

Only a maximum of four can be sent, with two per container, and each battery must have a rating of below 100 watts per hour. It is essential to note that some countries have their own regulations and restrictions for shipping lithium batteries, so it is crucial to check with the destination country's customs authorities before shipping.

How do you ship lithium ion batteries?

Goods must be labelled as "Lithium Ion Battery" or "Lithium Metal Battery" and include appropriate shipping marks and hazard labels. Lithium batteries must have the correct documentation - including a Dangerous goods declaration, air waybill, and packing list. Can you Ship Lithium-ion Batteries Internationally?
