
Egypt 2025 Energy Storage Projects

What's going on with Egypt's solar project?

Work is underway on a 1.1 GW solar project with 100 MW/200 MWh of accompanying battery energy storage in Egypt. The first phase of the project is scheduled for commercial operation during the first half of next year.

When will Egypt's first hybrid solar project start?

The first phase of the project is scheduled for commercial operation during the first half of next year. Norwegian renewables developer Scatec has broken ground on its 1.1 GW solar and 100 MW/200 MWh battery energy storage project in Egypt. The project, billed as Egypt's first hybrid solar and battery project, will be built in two phases.

How many MW solar & battery storage will be built in 2026?

The project will be constructed in two phases. The first phase of 561 MW solar + 100 MW/200 MWh battery storage is targeted to reach commercial operational date (COD) in the first half of 2026 and the second phase of 564 MW solar in the second half of 2026.

How many MW of solar will be built in 2026?

The first will see 561 MW of solar constructed alongside 100 MW/200 MWh of battery storage, with a targeted date for commercial operation in the first half of next year. The second half of the project, comprising a further 564 MW of solar, is scheduled for completion during the second half of 2026.

IFC today announced an investment to support Egypt's first utility-scale battery energy storage system (BESS), deepening its partnership with AMEA Power, a leading ...

Scatec starts constructing large-scale solar, battery storage project in Egypt Work is underway on a 1.1 GW solar project with 100 MW/200 MWh of accompanying battery energy ...

Oslo/Cairo, 05 May 2025: Scatec ASA has commenced construction of its 1.1 GW Obelisk solar and 100 MW/200 MWh battery storage project in Egypt. The energy will be sold under a USD ...

AMEA Power, one of the fastest-growing renewable energy companies in the Middle East and Africa, has announced the successful commissioning of Egypt's first-ever ...

The discussion centered on plans to establish Egypt's first stand-alone energy storage plants. These plants are designed to optimize the use of renewable energy and ...

Egypt Advances Clean Energy Strategy with Landmark Storage Projects Aug 10, During the meeting, Minister Esmat provided an update on several key energy projects, including the ...

Norwegian renewable energy producer Scatec has secured a 25-year PPA with the EETC for a 1 GW solar power plant and a 100 MW/200 MWh battery energy storage ...

Esmat also highlighted the vital role the private sector plays in Egypt's energy strategy, emphasizing its leadership in driving energy projects and expanding storage capacity ...

Dubai, United Arab Emirates, 15 July 2025 - AMEA Power, one of the fastest-growing renewable energy companies in the region, is pleased to announce the successful ...
