# Energy storage container manufacturer in Auckland New Zealand

Where can I rely on a containerised energy storage solution?

Today, we are also a name you can rely on for safe battery storage. Our containerised energy storage solutions are available as 10ft and 20ft high cubes and stand almost 3m tall, they can be deployed all over New Zealand and further afield (we have a footprint in 90+ countries).

Who can use our rentable battery storage containers?

Private individuals and businesses can use our rentable battery storage containers in any setting where they can physically be installed. Benefits include: Energy independence: break free from the grid and power your home or workplace with clean, reliable energy that you control.

What is a battery energy storage system?

A battery energy storage system (BESS) is a technology that allows for the storage of electrical energy in batteries, which can then be used to power electrical loads. BESS can be used for a variety of applications, including grid stabilisation, load shifting, backup power, and integration with renewable energy sources such as solar and wind power.

What is Aggreko battery storage?

Aggreko offers plug-and-play commercial battery storage systems that optimise energy use, improve efficiency, and reduce emissions. Our smart battery storage solutions integrate with renewable energy sources, helping businesses manage energy use more effectively and reduce their carbon footprint.

New Zealand welcomed its first utility-scale battery energy storage system earlier this year. Who can use our rentable battery storage containers? Private individuals and businesses can use ...
