
Factory price single breaker in Australia

How much does a circuit breaker cost?

The cost of the circuit breaker itself can range from \$15 for a basic single-pole breaker to over \$100 for a specialty breaker. Keep in mind that these prices can vary based on the brand and where you purchase the breaker. It's also worth noting that while it might be tempting to opt for the cheapest option, quality should not be compromised.

Are circuit breakers safe in Australia?

Yes, all our circuit breakers comply with Australian standards, including AS/NZS 3000:2018, ensuring they meet the necessary safety and performance requirements for electrical installations in Australia. Can I use these circuit breakers in a caravan or RV? Absolutely.

Who makes Rs circuit breaker accessories?

RS is a globally recognised and trusted supplier, distributor, and manufacturer of industrial circuit breakers and circuit breaker accessories. In addition to our own RS PRO line, we carry a wide range of types from top brands, such as MCCBs from Siemens, MCBs from Schneider Electric and even electronic circuit breakers from ABB.

What is the difference between a single-pole and a three-pole circuit breaker?

Single-pole circuit breakers are suitable for single-phase circuits, commonly found in residential and light commercial settings. Three-pole circuit breakers are designed for three-phase circuits, typical in industrial and heavy commercial environments. Ensure you select the appropriate type based on your system's configuration.
