# Freetown Temperature Controlled Container Wholesale

Do shipping containers need temperature control?

Due to harsh environments, shipping containers with built-in temperature control can be very necessary. Maximize the performance of your temperature-controlled shipping containers with our insulation, ventilation, and wall modifications. High-quality insulation helps maintain stable internal temperatures while reducing energy costs.

How can I improve the performance of my temperature-controlled shipping containers?

Maximize the performance of your temperature-controlled shipping containers with our insulation, ventilation, and wall modifications. High-quality insulation helps maintain stable internal temperatures while reducing energy costs. Ventilation can prevent moisture buildup and improve air circulation, minimizing the risk of mold and damage.

What are passive v active containers for temperature-controlled logistics tower?

Passive v Active Containers for Temperature-Controlled Logistics Tower delivers proven physical and temperature protection for pharmaceutical and life science products. Our containers are designed to perform in all supply chains and storage facilities, regardless of the transport type or environment.

Why should you use tower's passive temperature-controlled containers?

Tower's Passive temperature-controlled containers integrate with our customers' airside processes and, thanks to their ease of use, eliminate complexity for your handling agents and teams. Our local teams understand the time sensitivity and flexibility required to meet your customer's air cargo needs.
