
High quality magnetic breaker in Slovenia

Who is magnets Ljubljana?

Magnets Ljubljana is a European manufacturer of permanent metallic magnets, bonded magnets and magnetic systems with a long-lasting tradition, since 1951.

Why are Cast alnico magnets better than sintered magnets?

Because of their greater density, cast AlNiCo magnets have stronger magnetic properties than sintered magnets of the same class. On the other hand, due to economic reasons, casting technology, in comparison with sintering technology, is usually more suitable for producing magnets of larger dimensions.

What are the different types of alnico magnets?

Our production range includes sintered and cast AlNiCo magnets, sintered SmCo and NdFeB magnets, PA and PPS bonded NdFeB magnets as well as magnetic systems based on these products. The main advantages of cast AlNiCo magnets is high maximum operating temperatures, which can exceed 500°C, and also very good corrosion resistance.

Which magnet is better alnico or SmCo?

SmCo magnets have much higher coercivity than AlNiCo magnets, which means that they require more force to demagnetize them. They also work at higher operating temperatures and have better temperature stability than NdFeB magnets. Sintered NdFeB magnets offer the highest energy product and are available in a variety of qualities.

Investing in high-quality magnetic circuit breakers provides a critical layer of protection, mitigating risks and ensuring the safe and reliable operation of electrical infrastructure.

We offer Magnetic Separator, Magnetic Destoner, Gyro Screen, Plate Magnet, Tube Magnet, Liquid Trap Magnet, Vibro Screen, to Magnetic Rod in Slovenia in different customizations, as ...

Magnets Ljubljana is a European manufacturer of permanent metallic magnets, bonded magnets and magnetic systems with a long-lasting tradition, since 1951.

Reliable magnetic breaker suppliers are here! W9 Group offers high-quality products backed by excellent customer service to meet all your needs. Get in touch today for ...

The materials used in the manufacturing are of premium quality that ensures countable features such as high durability and strong structure. There also is no alternate available to Magnetic ...

Kupite izdelke iz kategorije Thermal Magnetic Circuit Breakers. Pri trgovini Farnell Slovenija vas čakajo možnosti hitre ponudbe, odpreme na dan narocila, hitre dostave, na voljo so tudi ...

Shihlin Electric is a high-quality circuit breaker, magnetic switch, power distribution system, magnetic contactor manufacturer from Taiwan since 1955.

High-quality magnetic circuit breakers boast durability and resilience, making them ideal for both residential and industrial settings. They can be found in various configurations, ...

Kumar Magnet Industries has been consistently engaged in improving the quality of the products for over so many years. As one of the best Magnetic Separator Manufacturers in Slovenia, we ...

Magnetic Separator Manufacturers In Slovenia Over three decades, Kumar Magnet Industries is successfully catering as a leading High Power Permanent Magnetic Equipment Manufactures ...

Find a trusted wholesale magnetic breaker factory offering high-quality products at competitive prices. Contact W9 Group today for all your magnetic breaker needs!

Magnetic Equipments Exporter in Slovenia We are marked as the manufacturer and exporter of the high quality magnetic equipments that are designed according to ...

Ensure reliable electrical protection with our high-quality magnetic breakers, designed for efficiency and safety. Ideal for global business buyers seeking durable and cost-effective ...

We are considered as the chief manufacturer and exporter of magnetic equipments in Slovenia. We provide effective range of magnetic equipments like channel ...

Searching for circuit breakers? In the business search engine SJN you find products and services from manufacturers, suppliers, importers, exporters and distributors.
