
How to choose a portable power bank

How to choose a power bank?

Look for a power bank with at least 2 USB charging ports on it. That way, you can charge your phone and another device at the same time. Usually, the charging ports on a power bank will have different charging outputs, so that you can charge larger devices at the same rate as smaller ones.

Should you buy a portable power bank?

If you need a higher capacity power source for a longer period of time, a portable power bank with a large mAh such as 40,000 mAh is the safest choice. With this option you do run the risk of sacrificing portability, so you must plan how you can store it for easy accessibility.

Why do you need a power bank?

A power bank (also called portable charger or external battery) is a must-have accessory for keeping your smartphones, tablets, and even laptops charged on the go. Whether you're commuting, traveling internationally, camping, or preparing for emergencies, the right power bank ensures you never run out of battery.

Which power bank is best?

PC World, for example, lists the Mophie Powerstation Plus XL (\$99.95) as the best overall power bank of 2018 and the Xiaomi 10,000mAh Mi Power Bank Pro (\$29.99) as the most portable. X Research source Find reviews for specific models once you find a brand you like.
