# Huawei Jakarta solar container outdoor power Factory

What is a 100 MWp solar power plant in Indonesia?

Heaptalk, Jakarta -- PLN, in collaboration with PT Aruna Cahaya Pratama (Aruna PV), China Power Hubei, and Huawei, to finalize the installation of the ground-mounted solar power plant in Indonesia with the capacity of 100 Megawatt peak (MWp), located at the Bukit Indah Industrial Zone in Purwakarta, West Java.

Can Huawei contribute more to Indonesia's energy transformation journey?

In that light, Huawei is open to collaboration with all stakeholders, particularly strategic partners, to contribute more to the energy transformation journey for Indonesia," remarked Jin Song during the launch event of the FusionSolar in Indonesia.

How does Huawei's solar energy technology work?

This product integrates solar power and energy storage, adding green energy options. Given its location along the Equator, Huawei's innovation is claimed to help reduce dependence on diesel power generators, minimize environmental impact, and better use Indonesia's abundant solar energy resources.

How will Huawei contribute to a green industrial area in Purwakarta?

The green power project involves the installation of 170,000 solar panels and 240 inverters over an area of 85 hectares. "Our involvement in the Puwakarta 100 MW project is Huawei's tangible contribution in implementing the concept of a green industrial area in Purwakarta.
