# Lithuania Commercial Uninterruptible Power Supply Equipment

What is an uninterruptible power supply (UPS)?

An uninterruptible power supply (UPS) provides a source of power for the equipment it protects. If there is a disruption to power, the UPS has an on-board battery to automatically supply to electrical equipment until the disruption is over or back-up generators kick-in. What is a WIMES UPS?

What is a continuous power supply (UPS)?

UPS is the short version of "uninterruptible power supply". In many applications a continuous power supply is important because power fluctuations and outages can cause damage to control equipment as well as unexpected down time. This situation can lead to a loss of productivity and revenue.

What is a water power supply (UPS)?

WIMES (Water Industry Mechanical and Electrical Specifications) UPS (uninterruptible power supply) is a robust critical power system built for harsh atmospheres such as dusty environments, moisture and humidity, as well as extremes in temperature and sites where robust solutions are required.

What makes Puls a reliable power supply?

Efficient, compact and reliable DC-UPS from PULS ensure highest system availability. Our uninterruptible power supplies are available with capacitor storage or VRLA batteries. The DC-UPS with integrated electrochemical double layer capacitors are fully maintenance free and guarantee an uninterrupted power supply for periods measured in seconds.

An uninterruptible power supply (UPS) provides a source of power for the equipment it protects. If there is a disruption to power, the UPS has an on-board battery to automatically supply to ...

List of Uninterrupted Power Supply (UPS) Companies in Lithuania . Suppliers, Distributors, Manufacturers, Importer. Include ELGAMA SISTEMOS UAB .

We offer uninterruptible power supply solutions for both short and long-term power failure situations. Our specialists assess the particular needs of every client allowing us to offer a ...

DC-UPS control unit ... What is a UPS module? UPS is the short version of "uninterruptible power supply". In many applications a continuous power supply is important because power ...
