What is solar outdoor lighting?

Solar outdoor lighting refers to light fixtures that collect energy during the day and switch on while it's dark. They are a great option for illuminating pathways and steps, or gardens and flowerbeds. Solar outdoor lighting helps reduce energy usage.

What lighting modes are available for solar outdoor lights?

Solar outdoor lights with motion detection are the ample lighting. At the same time there are three intelligent lighting modes for you to choose: (1) Medium long light mode, (2) Dim light sensor mode, (3) Strong light sensor mode (recommended). The brand applies a unique Transparency code to each item. We verify this code before delivery.

Are outdoor solar lights a good idea?

By carefully mapping out your space, outdoor solar lights can make your yard or garden feel as comfortable as your indoor living areas. When surveying your exterior's square-footage, note any pathways that may benefit from better lighting. "Solar lights for lining walkways or driveways are fabulous for design and utility," Agard says.
