
Montevija Bridge uses 100kWh collapsible shipping container

What is a 5-in-1 40' high cube shipping container?

The world's first 5-in-1 40' high cube shipping container that will revolutionize the intermodal shipping industry by providing significant cost benefits, improving empty container repositioning efficiencies, and lowering harmful CO2 emissions.

What is a collapsible shipping container?

Shippers are demanding improved efficiencies and sustainability throughout their supply chains.

COLLAPSECON is the collapsible shipping container pioneering the future of global trade. It's practical and rigid design saves on space, cost and handling, and helps to significantly reduce industry emissions.

Should a container be collapsible vertically?

Collapsing vertically has its benefits, but strength is not one of them. Given the requirement to position containers anywhere on a vessel, the industry must be confident that a collapsible container can sustain the weight of fully laden boxes both at sea and in the port.

How many containers can a collapsecon hold?

COLLAPSECON's innovative and fully automated design allows up to 4 containers to be collapsed and combined, giving them a fully laden weight and enabling them to be transported anywhere on a ship. 1/6 COLLAPSECON collapses horizontally, ensuring the container maintains its structural rigidity in any form.
