## New French solar panel manufacturer

Are SunPower solar panels made in France?

In its second decade of service, SunPower has consistently strived for innovation, delivering a diverse range of solar panels made in France. These include their signature Maxeon®; and Performance series panels, recognized for their top-tier efficiency and robust design.

Is the French solar industry undergoing a transition to a more structured industry?

The French solar energy sector is undergoing a transition towards a more structured and sovereign industry. The eleven companies represented at the France Pavilion at booth A4.140 are examples of the technological and industrial strength of the French solar industry.

What will das Solar do in France?

Looking ahead, DAS Solar plans to establish additional facilities for ingot and wafer production in France. Alongside partner companies, it also aims to localize production of key solar materials and components--including EVA/POE, cables, junction boxes, aluminum frames, and silver paste--forming a comprehensive "Made in France" solar supply chain.

Are solar panels safe in France?

In France, solar panels and inverters must comply with specific standards and certifications to ensure their safety and performance. This includes standards set by the International Electrotechnical Commission (IEC), such as IEC 61215 for crystalline silicon solar panels and IEC 61646 for thin-film solar panels.
