How much solar energy does New Zealand generate?

New Zealand solar generation, 2-8 March 2025. The 128 MW of solar generation was recorded on 6 March 2025, and in the same week, the mean daytime solar generation was 69 MW, and a total weekly generation of 5.5 GWh or the equivalent of powering 795 households for a year, was also achieved.

Where is the largest solar power plant in New Zealand?

New Zealand power company Genesis Energy has officially opened the 63MWp Lauriston site, which it claims is the country's largest solar PV power plant. The site, featuring over 90,000 solar PV modules spread across a 93-hectare site, is located west of Christchurch on New Zealand's South Island, near the Rakaia River in the Canterbury Plains area.

Will New Zealand's solar power reach an all-time high in 2025?

New Zealand's Electricity Authority Te Mana Hiko has reported the country's solar generation reached an all-time high of 128 MW but says that's likely to be surpassed when three new large-scale farms come online in 2025. New Zealand solar generation, 2-8 March 2025.

We are actively driving the evolution towards emission and noise compliant power solutions at worksites. The mobile solar container range redefines on-site power by harnessing ...

Aotearoa New Zealand's largest electricity generator has locked in funds for the first stage of a 400 MW solar farm in the centre of the North Island.

New Zealand's Electricity Authority Te Mana Hiko has reported the country's solar generation reached an all-time high in March of 128 MW but says that's likely to be surpassed ...

New data from the Electricity Authority Te Mana Hiko shows energy from solar farms have been hitting new records this summer, with a historic peak of 128MW reached on ...

Discover the benefits, challenges, and future potential of solar energy in New Zealand -- from rooftop solar PV systems to emerging grid-scale opportunities.

In a significant leap towards sustainable energy solutions, Trina Solar has collaborated with New Zealand's leading solar generation company, Lodestone Energy, to ...

The design of the solar PV plant (pictured) will ensure sheep grazing practices can continue. Image: Genesis Energy. New Zealand power company Genesis Energy has officially ...
