
Portable power bank for camping in Norway

How to choose a power bank for camping?

In the outdoors, versatility makes things simple. It saves time and keeps everyone happy. You get more time to enjoy the trip and stay connected. A lightweight power bank weighing less than 2 pounds is very helpful for camping trips. Its small size makes it easy to carry. Choose a device that fits well in small backpacks or pockets.

Which portable power banks are best for remote locations?

I've tested multiple portable power banks in remote locations, and the top performers include the Jackery Explorer 1000 v2 with 1070Wh capacity for high-demand devices, the GRECELL 300W station offering 230.88Wh with efficient MPPT solar charging, and the compact P201 providing 148Wh with multiple connectivity options.

What do car campers use their power bank for?

The vast majority of car campers are using their power bank for just one thing: keeping that phone charged. And even though you're off the grid (at least we hope), free from the YouTube autoplay and Facebook algorithm, you'll probably still need to use your phone for at least a couple of things. Photos. Alarm clock. Offline maps.

Do you need a power bank for a wilderness trip?

On the other hand, if you're planning to spend multiple days in the wilderness carrying a number of different devices (like a GPS, phone, GoPro and digital camera), then you're going to need one of the bigger power banks around (probably 20,000mAh+).

Harsh weather, remote locations, and multiple devices make staying powered up during camping trips more critical than ever. As we venture further off the grid with GPS ...
