What is solar leasing?

Solar leasing is a financing option through which customers pay a monthly fee for the panels and get to use the power the system produces. They do not, however, own the panels.

Is solar leasing a good option?

As with any solar financing option, solar leasing comes with its share of pros and cons: As long as your contract is structured competitively, solar leases should reduce your monthly energy costs compared to what you'd pay your utility company.

Should you lease or buy solar panels?

Solar power is among the most affordable renewable energy options, whether for businesses or homes. Companies that provide solar products are everywhere these days, but to take advantage of the benefits of solar energy, homeowners are faced with a major decision: solar leasing vs. buying panels outright.
