# Request budget for how much does a 20kW solar container cost

How much does a 20 kW solar system cost?

A 20 kW solar panel system is enough to power a large home--but it'll cost you about \$55,000. Why trust EnergySage? Installing a solar panel system can save you tens of thousands of dollars over time, but the upfront costs aren't exactly chump change.

How much electricity does a 20 kW solar system produce?

A 20 kW solar panel system produces about 29,033 kWh of electricity annually, but the exact amount depends on where you live and how much sun you get. DIYing a 20 kW solar panel system usually isn't your best bet: You're much better off hiring a professional solar company for optimal results. How much does a 20 kW solar system cost?

What is a 20kW Solar System?

Achieve energy independence with our 20kW solar systems. Generating approximately 2,000 to 3,000 kWh of AC power a month, 20kW solar systems are ideal for large households with several EVs and huge energy demands. Choose from a selection of grid-tie and off-grid 20kW solar systems, or get in touch with our experts for a custom system!

How many solar panels does a 20 kilowatt solar system need?

The number of solar panels required to generate 20 kilowatts of energy hinges on the efficiency of your panels. Typically, you would need about 55 to 60 standard efficiency panels, but GoGreenSolar solar kits include higher efficiency panels that can get the job done with as few as 50 panels. Do you need battery storage for a 20kW solar system?
