
Riga High Efficiency solar Module Project

Will a solar energy park be built in the port of Riga?

Today, on 9 September, an agreement was signed between the Freeport of Riga Authority and the Lithuanian company SNG Solar on the lease of land in the Port of Riga in the Spilve Meadows area for the development of a solar energy park.

How much will SNG solar invest in Freeport of Riga?

SNG Solar won the auction organised by the Freeport of Riga Authority for the land lease right and at the beginning of May the Freeport of Riga Board decided to enter into an agreement with the Lithuanian company. The total investment in the park is expected to be between EUR 60 and 80 million.

Will SNG solar build a solar power plant on Spilve meadows?

According to the agreement SNG Solar will build a solar power plant with a nominal capacity of 100 MW on an area of 177.2 ha on the Spilve Meadows site within five years, providing production of about 100 000 MWh of green electricity per year.

Ignitis Renewables, an international green energy company, has completed its first solar project in Latvia where Varme solar farm, located in the Kuldiga municipality, has ...

Lithuanian solar developer SNG Solar has signed an agreement with the Freeport of Riga Authority to construct a 100 MW solar plant in the port of Riga. SNG Solar will build the ...

Riga Solar PV Project is a 100MW solar PV power project. It is planned in Riga, Latvia. According to GlobalData, who tracks and profiles over 170,000 power plants worldwide, ...

Today, on 9 September, an agreement was signed between the Freeport of Riga Authority and the Lithuanian company SNG Solar on the lease of land in the Port of Riga in the ...

European Energy is ready to start building one of the largest solar parks in Latvia to date, with a capacity of 148 MW once completed. It is expected that this project will produce 154,550 MWh ...

Overview of the Solar Plant Initiative The solar initiative led by SNG Solar marks a transformative step towards reducing carbon emissions in the region. With a construction ...

Latvia inaugurates the 94 MW Varme solar farm, the largest in the Baltics. Learn how this massive project from Ignitis Renewables powers up the grid with 99 GWh annually.

The project utilized local resources, with Lithuanian-made trackers and 120 Latvian workers. Ignitis plans to apply insights from Varme to a 200-MW solar-plus-wind hybrid project ...

The largest solar energy park in Latvia has been opened in the Varme parish of Kuldiga region. It is also the first such project connected to the Latvian high-voltage electricity ...

SUNOTEC builds massive solar and battery storage project in Latvia, boosting renewable energy, energy independence, and economic growth. A game-changer for Latvia's ...
