
San Diego inverter manufacturer

Who makes power inverters?

EPC Power is the only manufacturer in North America producing grid-scale power inverters. A power inverter is a device that converts electricity between AC (Alternating Current) and DC (Direct Current). AC electricity is the type that powers our homes through power lines, while DC electricity is commonly supplied by batteries.

Who makes micro inverters?

Enphase, the pioneer of the micro inverter concept, is a globally leading manufacturer as well as supplier of micro inverters. They rank among TIER-1 companies. They are also known for revolutionizing power generation on a global scale. Mr. Raghuram Belur and Mr. Martin Fornage established the brand jointly in 2006 in California (USA).
