
Selling solar panels in Belmopan

Does Bel pay for excess electricity?

BEL presently provides compensation for excess electricity fed into the grid, applied as a credit to customers' accounts.

How long do PV panels last?

Most PV panels can last 25 years with up to 80% output. - High quality inverters generally last 5-12 years, depending on the brand. - Battery life time is measured in cycles and strongly depends on technology and usage. *Equipment lifespans vary by manufacturer, technology, and care of equipment.

Should I buy or have my solar system financed by DFC?

You can buy the system or have it financed by DFC. You decide what works best for you. Sit back and watch as your new solar array comes to life. "Since our system was installed, our utility expense has decreased significantly, which has resulted in more flexibility in our cash flow than we would otherwise have.
