## Selling solar panels in Yamoussoukro

Is a solar pick-up happening in Africa?

The latest data provides evidence that a solar pick-up is happening at scale in many countries in Africa. Solar is not new to Africa. For more than two decades, solar has helped improve lives across Africa, in rural schools and hospitals, pay-as-you-go in homes, street lighting, water pumping, mini-grids and more.

Does Africa Import solar panels from China?

This report presents Ember's analysis of Africa's imports of solar panels from China. The Chinese solar panel export data gives valuable insights because it includes imports up to June 2025, at a monthly granularity, and for every country in the world. The data can be found in Ember's China Solar Export Explorer.

Are solar panels taking off in Africa?

The first evidence of a take-off in solar in Africa is now here: The last 12 months saw a big rise in Africa's solar panel imports. Imports from China rose 60% in the last 12 months to 15,032 MW. Over the last two years, the imports of solar panels outside of South Africa have nearly tripled from 3,734 MW to 11,248 MW.

How many solar panels are imported outside of South Africa?

Over the last two years, the imports of solar panels outside of South Africa have nearly tripled from 3,734 MW to 11,248 MW. The rise happened across Africa. 20 countries set a new record for the imports of solar panels in the 12 months to June 2025. 25 countries imported at least 100 MW, up from 15 countries 12 months before.
