Where is solar glass manufactured?

The company spotted the opportunity in this segment quite early and commissioned the solar glass manufacturing facility at Bharuch in Indian State of Gujarat in January 2010. Over the last 5 years, the solar PV installations and module production across the world have grown exponentially.

What is solar glass?

Mainly engaged in high-quality, high-tech glass deep processing, the products include photoelectric touch glass (monitor front and rear panels and touch screen glass), home appliance glass, photovoltaic glass, and high-end home decoration glass. Solar glass is a glass material that integrates the function of solar power generation.

What is Solar Photovoltaic Glass?

Photovoltaic solar cell glass, also known as solar photovoltaic glass or solar panel glass, is a special glass material used to manufacture solar photovoltaic cell modules. It has transparency and optical properties that allow light to pass through and be absorbed by solar cells to produce electricity.

What are the different types of glass products?

The products sell well in China, Europe, America and Asia. Mainly engaged in high-quality, high-tech glass deep processing, the products include photoelectric touch glass (monitor front and rear panels and touch screen glass), home appliance glass, photovoltaic glass, and high-end home decoration glass.
