The majority of the plants are owned and operated by ZESCO,the national power utility. Choma Solar Power Plant Limited. In March 2022,Chariot Limited of the United Kingdom together with Total Eren of France and Canadian mining giant First Quantum Minerals entered into a partnership to develop a 430MW solar and wind power project in Zambia.

How does solar power work in Zambia?

Solar power in Zambia primarily uses solar photovoltaics (PV)to generate electricity. Several communities,entrepreneurs,the government,and NGOs collaborate to increase the share of solar power in the country.

Is there a solar market in Zambia?

Yes,the Zambian solar market is growing. Although it is still relatively small compared to countries like Tanzania,there is much room for solar to grow due to the increasing electricity demand in Zambia. Currently,95% of the electricity supply comes from hydropower,with less than 1% from other renewable sources.
