# Solar street light with solar panel

How do I choose the best solar street light?

This guide breaks down key factors like lumens, battery capacity, solar panel type, and installation requirements to help distributors, wholesalers, traders, and retailers choose high-quality products. To choose the best solar street light, consider lumens per watt efficiency, battery capacity, solar panel quality, and installation environment.

Which solar street lights are available?

Our All-In-One Solar Street Light is available in the SIRIUS (INL-AIO9), GALAXY (INL-AIO6), ALIEN (INL-AIO5), and POLARIS (INL-AIO2) series. Utilizing the latest integrated design, the lithium battery, solar controller, and solar panel are all housed within the light casing.

Why should you choose a solar LED street light system?

A properly sized solar LED street light system ensures consistent brightness, reliable battery backup, and optimal solar panel performance, making it a sustainable and cost-effective lighting solution. Choosing the right solar panel type is essential for maximizing the efficiency and performance of a solar-powered street lighting system.

What is a solar street light?

A solar street light is a raised lighting system powered by a photovoltaic (PV) module charging a battery that runs an LED luminaire at night. Modern systems are off-grid, smart-controlled, and designed to operate through low-sun periods. Pole/brackets & wiring, optional sensors/remote monitoring.

All-In-Two Solar Street Light Models Our All-In-Two Solar Street Light is available in the JAGUAR, Falcon, and Bison series. Utilizing the latest semi-integrated design, the ...
