
Spherical outdoor rechargeable solar light

What is a solar sphere light?

These solar lights have been designed with a powerful integrated 3.7V 1200mAh rechargeable Li-ion battery. As it charges automatically in the sun, you'll never need to worry about it running out of power! The solar panel is located inside the Solar Sphere Light to maintain its sleek look.

Can sphere lights stand alone?

Designed to stand alone or sit together in a pair, they suit any outdoor area. The lights are also fitted with an optional ground spike if you want to place the spheres on a grass area.

How does a solar sphere light work?

Once the light is switched on by holding the button on its base, the light will automatically come on at dusk and turn off at dawn. However, you can also wirelessly switch the lights on and off as well as control brightness. Better yet, a single remote can control all your solar spheres universally!

Are solar lights a good alternative to wired lights?

Solar lights are not only a viable alternative to conventional outdoor wired lights, particularly where installing electrical lighting is prohibitive, but they're also eco-friendly, low in cost and highly energy-efficient thanks to their LED bulbs and an energy-saving power source. These lights will look great anywhere!
