## The battery cabinet control panel belongs to the site cabinet

What is a HindlePower Battery Cabinet?

HindlePower's Battery Cabinet is designed to maximize DC system performance and battery life, saving YOU time and money. The EPIC series battery cabinet offers a NEMA 3R and NEMA 1 modular design, with built-in intelligence, will safely house any combination of batteries, chargers, DC distribution, and/or other ancillary equipment.

What is a battery cabinet?

Equipped with the HindleHealth System, the Battery Cabinet will keep your battery at the ideal temperature in the most extreme of environments, giving you peace of mind. HindlePower's Outdoor Battery Cabinet takes a proactive approach to hydrogen mitigation.

What is a control cabinet?

A control cabinet is a structure whose primary task is to protect automation components, power distribution systems and electrical components from the negative effects of external influences such as dust, humidity or extreme temperatures. As a result, it ensures trouble-free and continuous operation of systems or electrical apparatus.

Where is the UPS battery cabinet located?

The battery cabinet may be located to either the left or right of the UPS cabinet. The recommended location is to the left of the UPS cabinet. This procedure assumes the battery cabinet is located to the left of the UPS cabinet. Figure 3-2. UPS with Line-up-and-Match IBC-S
