At A1SolarStore you can find a variety of roof mounted solar systems for sale, grid-tie and off-grid. Our managers will be glad to answer any questions about prices, warranties and shipping options. Here is how we operate: Our fulfillment centers are located on East and West coast of United States

What is a DIY roof mount solar panel system?

DIY roof mount solar panel systems are solar panel kits designed for installation on rooftops. They make use of your home's rafters to support the weight of the solar array. Shop our selection of DIY roof mount solar panel kits for both grid-tied and off-grid properties. Roof mount systems are the standard choice for most home solar installations due to their convenience and cost-effectiveness.

Are rooftop solar panels a cost-effective option?

Rooftop solar panels are usually the most cost-effective option if you have a viable South, West or East facing roof with enough space to build your array. Use our easy solar panel calculator to get a quick estimate of how many solar panels you'll need for your home.
