# UK Folding Container High-Efficiency Product Warranty

Why should you upgrade to Chep's foldable pallet containers?

Optimized for cost savings with a fold-flat design, their flexible design is developed for a wide range of food ingredients and packaging materials, making them versatile across industries. Make the switch to Foldable Pallet Containers today. Three good reasons to upgrade to CHEP's Foldable Pallet Containers.

What is an upright folding container?

An upright folding container is a type of container with hinged long sides in the middle and hinged short sides at the base. In its folded and upright state, the upper frame remains rigid, providing the necessary stability. This type of container is commonly used in the retail sector.

How long does it take to store a 2m container?

No specialist tools are required and two people can have the 2m store up in less than an hour. Larger collapsible containers of 3m and 4m will take a little more manpower, but the process remains the same. All sizes are compact enough when collapsed to be stashed away for future use.
