What is an uninterruptible power supply?

An uninterruptible power supply, also uninterruptible power source, UPS or battery/flywheel backup, is an electrical apparatus that provides emergency power to a load when the input power source, typically mains power, fails. *Note: A UPS will beep continuously when power is off. This is normal. The UPS is only a temporary powermore..

How much does a ups cost in South Africa?

An uninterruptible power supply (UPS) protects delicate electronics and appliances during load shedding and reduction in South Africa. UPSs can range widely from R5,000 to R 190,000+, depending on your model, brand, UPS capacity, battery type, features, and warranty.

Why does an uninterruptible power supply cost so much?

As an uninterruptible power supply's capacity increases, the cost also increases. Higher capacity models have advanced circuitry and more robust components, contributing to this higher price. The type of battery used in a UPS also comes into play.
