
What are the 5G base stations of Tirana Communications Company

Is Ericsson launching a 5G network in Albania?

Hungarian technology company 4iG has chosen Ericsson for the deployment of a next-generation mobile network in Albania, following the recent acquisition of 5G frequencies by 4iG subsidiary One Albania. One Albania has already launched commercial 5G services, doing so in November of last year.

Does one Albania have 5G?

One Albania has already launched commercial 5G services, doing so in November of last year. In 2023, 4iG completed the merger of its Albanian telecom units ALBtelecom and ONE Telecommunications to create One Albania. 4iG noted that it wants to build on this launch after acquiring new 5G frequencies for EUR5.4 million (\$5.5m) during a recent tender.

How 5G technology is transforming connectivity?

5G technology is revolutionizing connectivity, and the manufacturers of 5G equipment are leading this transformation. From modems and base stations to RAN, antenna arrays, and core networks, these companies are providing cutting-edge solutions. Leading vendors are offering innovative products to enhance network speed, coverage, and efficiency.

How much will 4iG invest in Tirana?

According to 4iG, the first part of its network development investment worth EUR50m (\$51.5m), will focus on delivering high-coverage 5G across key strategic areas, including major ports and airports, industrial zones, key hospital areas in Tirana, and the most visited coastal locations.

Eventi Slush'D, i pari i këtij lloji në Shqipëri, u përmbyll me sukses, duke ofruar një platformë të fuqishme për rrjetëzim dhe ndarje njohurish. Ky aktivitet lidh sipër marrës shqiptarë me aktorë ...
